TO WHOM IT MAY CONCERN:

Robert Dewberry has worked with Litho Development & Research, Inc. and LDR International, Inc. since November, 1990.

He was most helpful in cases in which we engaged his services for delinquent accounts and repossessions, bankruptcies and legal advice regarding transactions to protect our interests.

I especially appreciated prompt responses to my questions, his ability to research cases to support our position, his diligent efforts to keep me abreast of ongoing litigation and the excellence of his support staff.

I am confident anyone who engages his services will be represented in a professional, conscientious manner and will be pleased working with him.
